

YOUNG PEOPLE AND SOCIAL CHANGE:

ACTION REACTION AND INACTION

Final Conference 8 – 9 April 2019 University of Manchester

The H2020 project PROMISE: Promoting Youth Involvement and Social Engagement is a major EU funded youth research project coordinated by the University of Manchester.

The project brings together 12 European research institutes with complementary expertise.

PROMISE explores young people's role in shaping society by focusing on the different ways they engage with social, environmental and political issues, and how they present opportunities for social change.

PROMISE researchers conducted fieldwork, across Europe, in participation with young people 'in conflict' with authority.

We would like to invite you to the project's final conference presenting results of the mixed methods research approach. The meeting will give a platform for researchers, young people, practitioners, policy and decision makers and create room for reflective discussion about key messages from the project
